

## 52 Card Rhyme

Each line delivers seven beats, except for the last which is 3 or 4 depending on Joker.

And now a little interlude while I deal some cards

I hope that you've enjoyed yourself with what we've done so far

It is a little odd to mix playing cards with rhyme

I think it is quite clear that I... have lots of free time.

Sure I could sit quietly while I deal orrr....

Do my little song and dance so it's not a bore.

Some think it's artistic, some think it's just fun

I bet I know what you're thinking... thank god he's done!
